Accredited Internship and Postdoctoral Programs for Training in Psychology

(February 1, 2005)

(PUBLIC NOTICE: The following notice is provided as a public service by the APA Office of Program Consultation and Accreditation consistent with a web listing protocol recommended by the Association of Specialized and Professional Accreditors (ASPA).

This section of the APA Office of Program Consultation and Accreditation website contains the only official web-based list of professional psychology programs accredited by the APA Committee on Accreditation. However, it is for informational purposes only and should not be used for official credential review. The Office of Program Consultation and Accreditation is not responsible for the accuracy of any accredited status representations on any other website.

For an official hardcopy list of accredited programs, please contact the Office of Program Consultation and Accreditation at 202-336-5979 or email [Accreditation](#).

The Committee on Accreditation has accredited the doctoral internship and postdoctoral residency training programs in psychology offered by the agencies listed below. The original date of accreditation, listed for each program, is the day on which the program's accredited status became effective. Program review is governed by the "Guidelines and Principles for Accreditation of Programs in Professional Psychology" (G&P). The guidelines for evaluating these programs can be obtained from the APA Office of Program Consultation and Accreditation.

Also listed for each program is the date of the next regularly scheduled site visit. Those programs visited prior to 2004 for which no final decisions had been reached at the time of this posting are listed as "next site visit not yet scheduled." The Committee accepts third-party comment on programs in advance of their next scheduled reviews. For details on providing comment, please refer to the "Procedure for Provision of Third-Party Testimony" or contact the Program Consultation and Accreditation Office.

Accreditation is a voluntary process. Programs that have not applied for accreditation are not included in the list. Programs listed as accredited have been judged by the Committee to be consistent substantively and procedurally with the G&P. Programs listed as accredited, on probation, are, in the Committee's judgment, not currently consistent with all aspects of the G&P. Programs listed as accredited, inactive have no funded interns in a given training year. Any programs that applied for accreditation and were reviewed but were denied accreditation after completion of the evaluation process will be listed in the "programs denied accreditation" section following the main listing. Denial of accreditation designates an applicant program for which the Committee has evidence that the program is inconsistent with the G&P.

The accreditation status listed for each program reflects that program's current accredited status. If a review of a program is not complete or the decision is not final, the program's prior accreditation status continues to be in effect until the review has been completed and a final decision has been reached.

To obtain more information on training goals and approaches of specific programs, the reader is encouraged to contact the program directly.
